# Congratulations

WE DO A HAPPY DANCE IF YOU BOOK

Milestone Sessions are held in our Redland Bay studio.

The first year of having a baby is such a blur, life becomes so hectic and not to mention the sleepless nights.

So much personality starts to shine through in this first year. Capture those moments forever and do either a 3 month smiling session, 6-9 months sitting session or a 12month cake smash and splash session.

*let us put the meaning back into your photographs*

# about me

## WHY I STARTED HELLO FOX PHOTOGRAPHY

I love babies, newborn photography is my passion, but there is something so magical about capturing that special bond when photographing families, those cheeky little personalities that come out only around Mums and Dads, the people they trust and are most comfortable with.

My goal is to create timeless photographs that will remain in your family for years to come, capture that feeling of love you feel the first time you hold your new baby. To capture those delicate features of your baby

and those squishy little moments that you never get back.

I have always been in the creative industry, from being a Hairdresser for over 8 years, then studying Graphic Design and working for Queensland Newspapers it really wasn't until I moved to New Zealand and met my long time friend Georgia who photographs portraits, this is when it truly clicked (excuse the pun). I wanted to be a professional photographer.

# the hello fox studio

We are located in Redland Bay, on Brisbane's beautiful bayside. It's a beautiful family friendly and safe place that families can bring their newborn babies to be photographed. It is a studio attached to our family home but is fully dedicated baby photography studio. Parents and families can feel comfortable, relaxed during the photography experience.

All wraps, outfits for baby and props are supplied in your session, unless you want to bring in something special to you, please just send me a message so we can chat about how we can use your special item.

I use a Canon EOS R Mirrorless with a Sigma Art 35mm lens and a Canon 50mm lens. I use mixture of natural light and studio light. (Depending on the weather outside).

By hiring me for your newborn session, you can rest assured, your new baby is in the safest environment with the safest equipment and hygienic practices.

My style is very simple, I like my images to be sharp, I like them to show detail and I love, love, love neutrals and whites.

Working with newborn babies is seriously the best job in the world, I absolutely love what I do and I can't get enough of capturing these fleeting moments in time for families. The tears and smiles you see when I deliver parents their photos is the reason I do what I do.
